

**Before you travel anywhere it is important to know these 5 tips: (VERY IMPORTANT!!!)**

1. If you are booking your trip on the internet yourself be careful ALL the information you provide is correct including the spelling of names on passports. If there are mistakes made you will be the only one responsible and may loose your tickets if the information is incorrect!
2. Upon arrival ensure you check your room well when you are first shown it. Check for things like ants, mildew spots (bathroom), bad odours, broken front door or patio door locks. If there is a problem request a change of room immediately! DO NOT wait one or two nights as the availability may diminish. See the manager if necessary.
3. ALWAYS be polite and discrete with any requests or problems you may have. (you get more bee's with honey).
4. ALWAYS travel in groups of 4 or more. DO NOT "discover" the island alone, NEVER!
5. Last but not least, anywhere you go will always be more laid back than where you came from. Time is not a factor on vacation. RELAX and enjoy!
